I have seen two addons after a google search: No more squint save your eyes However when I attempt to install them both say author not verified.. 0 it tells me that I am not authorized to continue Ok I have the latest firefox version and it doesn't seem to save the zoom setting, I think it used to.. Now you can surf the Web on your desktop, get up in the middle of browsing and have your open tabs ready and waiting on your mobile, just as you left them.

I use my hdtv for surfing a lot (my dual core pc is connected to it via hdmi) So I need to adjust the zoom level a lot on different sites for comfortable reading.. Type your term into the location bar (aka the Awesome Bar) and the autocomplete function will include possible matches from your browsing history, bookmarked sites and open tabs.. I Just Downloaded Firefox 3 6 15 For Mac OsI can't download update to 3 6 15, it just shows it 'streaming', also when I try to upgrade to 4.. # Stay in Sync Sync seamlessly connects your desktop and mobile Firefoxes, so you can access your browsing history, passwords, bookmarks and even open tabs no matter which device you use.

css just firefox

css just firefox, your tab just crashed firefox, firefox gah tab just crashed, firefox just shows white screen, tab just crashed firefox, just read firefox, firefox just keeps loading, just not sorry firefox, firefox just closes itself, just black firefox, firefox just read, firefox just hangs, firefox just remember i love you, firefox just black, firefox just stopped working, just focus firefox

Form Complete When you're filling out an online form like your shipping address, Firefox will suggest information for each field based on your most common answers for similar fields in other forms.. public test available for mac The Awesome Bar learns as you use it-over time, it adapts to your preferences and offers better-fitting matches.. # Improved Interface We're always looking for ways to make your browsing easier and more efficient.. Access years of desktop browsing the first day you fire up your mobile, and use saved passwords from your desktop to fill out forms on your phone.. Features Browsing Made Easy # Awesome Bar Get to your favorite sites quickly even if you dont remember the URLs.

firefox gah tab just crashed

Are there any safe zoom lock add ons for firefox?RoSoftDownload Note: For the previous versions of Mozilla Firefox, please check out the list of versions in this page, situated under the program description.

tab just crashed firefox

Weve tweaked it to give you greater control over the results (including privacy settings) and increased performance so you find what you need even faster.. Tired of typing out the same answers over and over?. I Just Downloaded Firefox 3 6 15 For Mac OsYour browsing will never be the same! # Password Manager Tired of trying to remember or retype your passwords every time you visit a favorite site? Firefox is here to help! Youll be prompted with a non-intrusive option to remember passwords when you first log in-after that, Firefox will take care of the rest.. Everytime I boot up the browser and go to videohelp com I need to ctrl + 3 times or so to get the fill level set properly. e10c415e6f
